

HEALTHCARE ENVIRONMENTS DEMAND MORE

Hospital-Grade Cleaning & Disinfection. Compliance-Ready.

Protect patients, residents, staff, and visitors with trained healthcare EVS teams, documented disinfection protocols, and responsive coverage across Greater Chicago and Northwest Indiana.

A SMARTER
OPERATING MODEL

\$80K+

Potential in Average Annual Savings

Many qualifying facilities may identify \$80,000 or more in combined staffing, training, equipment, turnover, and compliance-related cost opportunities after a tailored assessment. Results vary and are not guaranteed.

Clean environments are clinical infrastructure.

Hospital-grade environmental services help interrupt transmission, support survey readiness, and protect the continuity of care. High-touch surfaces, shared equipment, patient rooms, resident areas, and medical offices require consistent methods—not ordinary janitorial routines.

Common healthcare threats

Organisms can persist on hands, surfaces, equipment, air, or body fluids and move quickly through vulnerable populations.

MRSA

C. difficile

VRE

Norovirus

Influenza

Hepatitis B

Candida auris

Aspergillus

Compliance built into the work

Spectrum aligns cleaning delivery with documented procedures, chemical labels and dwell times, PPE and hazard communication, OSHA Bloodborne Pathogens practices, EPA-registered products, HIPAA-aware conduct, and facility-specific CMS expectations.

Your Designated Infection Preventionist

Spectrum will designate a qualified Infection Preventionist to your facility, bringing applied infection-prevention expertise to surveillance, staff education, training, audits, documentation, and outbreak response. This support helps your organization remain CMS compliant and Medicare- and Medicaid-ready. Final participation and regulatory obligations remain the facility's responsibility.

Why Spectrum

- ✓ Healthcare-trained EVS teams
- ✓ Inspection-ready documentation
- ✓ Terminal and discharge disinfection
- ✓ Flexible day, night, and weekend coverage
- ✓ Rapid response and on-call availability
- ✓ Operational and liability support

Services

- Patient, resident & medical office cleaning
- High-touch surface disinfection
- Biohazard and bloodborne response
- Specialized floor and surface care
- Regulated medical waste support
- Emergency and outbreak support

\$80K+
Potentially saved annually.

Ask what outsourcing could save your facility each year. A customized assessment can expose avoidable labor, equipment, training, turnover, supply, and compliance costs.

Advertisement. Services are tailored to facility scope and applicable law. Savings and outcomes vary and are not guaranteed. Spectrum supports compliance readiness; the facility retains responsibility for CMS participation, Medicare/Medicaid obligations, clinical decisions, and regulatory compliance.
